

Draft COP28 - Program organized by Norwegian Energy partners

Program draft

Overall topics

Decarbonization - Energy Transition – Digitalization and Technologies in reducing emissions. Norwegian perspective, achievements, visions and future strategies.

Target group

Participants and organizations registered for COP28.

Objectives

1. To engage in meaningful discussions that enrich the Norwegian standpoint on critical energy-related matters.
2. Highlight the advancements in decarbonization and energy transition, fostering a dialogue between consumers and the production sector.
3. Explore the essential question of whether the challenge stems from a **technological deficit** or a **reluctance to embrace existing technologies**.
4. How looks an efficient weather dependent Energy system looks like today and going forward give intermittent energy production

Focus areas

1. Industry achievements
2. Commitments and the role of technology in reducing emissions.

Tuesday and Wednesday 04 -05 December 2023

Date and time	Topics and Key discussions	Participants
04 Dec 13:00	Weather dependent energy system	Christian Rynning Tønnesen, CEO - Statkraft Hilde Tonne, CEO - Statnett Tom Einar Jensen, CEO - Freyer TAQA (Infrastructure owners in the Middle East) – CEO, (TBC)
05 Dec 10:00	Facilitating the Energy Transition and decarbonization efforts with Digitalization and AI	Nabil Nuaim, SVP/Chief Digital Officer (CDO)- Saudi Aramco John Markus Lervik, CEO - Cognite Tom Einar Jensen, CEO - Freyer Remi Eriksen, CEO - DNV
05. Dec 12:00	Facilitating the Energy Transition with Technological Advancements and Innovations	Hilde Merete Åsheim, CEO – Norsk Hydro Terje Pilskog, CEO – Scatec Svein Tore Hollsether, CEO-Yara ADNOC, CEO Offshore – (TBC)
