

# Scottish Renewables' Offshore Wind Conference

Delegation | 8 – 10 March 2022 | Glasgow, Scotland

# Programme

## Tuesday, 8 March

Alsh 1 at Scottish Event Campus (SEC)

|               |  |
|---------------|--|
| 08:00 – 08:30 | <b>Welcome and introduction</b>  |
| 10:30 – 11:15 | <b>Ocean Winds</b><br>Mark Baxter, Caledonia Offshore Wind Farm, Project Director<br>Roger McMichael, Moray West Offshore Wind Farm, Stakeholder Manager   |
| 12:30 – 13:15 | <b>Inch Cape Offshore Wind Farm</b><br>Nikki Keddie, Stakeholder Manager   |
| 14:30 – 15:15 | <b>ORE Catapult</b><br>Andrew Macdonald, Director of OSW Development & Operations  |
| 16:15 – 17:00 | <b>Falck Renewables</b><br>Scott Gilbert, Global Head of Engineering   |
| 19:30 – 22:30 | <b>Optional: Social dinner for the Norwegian delegation</b><br>Venue: Ox and Finch, 920 Sauchiehall Street, Glasgow, Scotland G3 7TF<br>To enable networking and exchange of experiences and learnings between the delegates. Individual cost covered by the participants. |

## Wednesday, 9 March

Alsh 1 at Scottish Event Campus (SEC)

|               |   |
|---------------|---|
| 08:45 – 09:30 | <b>NECCUS</b><br>Ronnie Quinn, UK CCUS & Supply Chain   |
| 10:45 – 11:15 | <b>Crown Estate Scotland</b><br>Gillian Morrison, Development Manager - Supply Chain                                    |
| 12:00 – 13:00 | <b>Scottish Power Renewables (Iberdrola)</b><br>Kirsty Adams, Supply Chain Manager                                      |
| 13:00 – 14:00 | <b>SSE Renewables</b><br>Alex Meredith, Berwick Bank Project Director<br>Chris Harvey, Berwick Bank Procurement Manager |

## Thursday, 10 March

Island suite at Crowne Plaza Hotel, Glasgow

08:30 – 10:30

### **Norwegian offshore wind expertise showcase**

This exclusive third day event provides an excellent opportunity for members of this Norwegian delegation to showcase their capabilities, experiences and unique value offering to major international offshore wind developers through a series of short presentations to an invited audience.

From 11:00 to  
16.00

### **B2B meetings**

One-to-one meetings will be organised with **BP** and with **Iberdrola (Scottish Power Renewables)** based on the UVP's submitted by companies.

Networking opportunities throughout the day with lunch provided at 12.00

We are pleased to offer an exciting range of meetings bringing together the delegation with international Offshore Wind (OSW) developers including winners of the recently announced ScotWind sites and policy makers to provide an insight into supply chain initiatives and innovation hubs.

**BP:** with an OSW portfolio of over 5.1GW\* internationally under development including projects in UK Round 4 & ScotWind with their JV partner EnBW (where fixed bottom projects under development in the UK by this JV total 5.9GW). With a strong record in renewables having developed 14.1GW across all green technologies, BP will provide an overview of their net-zero strategy and aims to deliver low carbon electricity and energy by 2030. OSW is BP's fastest growing renewable business area with high level growth opportunity globally through strategic partnerships.

**Scottish Power (Iberdrola):** with an OSW portfolio of over 20GW\* internationally of which 4.5GW\* are ScotWind sites, we welcome back Scottish Power (Iberdrola) who will provide an insight into the upcoming activities and share their thoughts on the deployment of floating wind at scale. Of the recently awarded sites, 5GW of floating wind, together with their JV partner Shell, will soon be under development for deployment over the next decade. With only 80MW of floating wind operational in Scottish Waters to date, there is challenge and opportunity ahead. The Norwegian delegation will also hear more on the fixed-bottom portfolio including East Anglia THREE, a 1.4GW project competing in the UK Government CfD subsidy round due to be announced in Summer-22.

**SSE Renewables:** with an OSW portfolio of over 10GW\* of which 7GW is currently in development, SSE together with their JV partners Marubeni and CIP, were awarded a 2.6GW floating wind site on the east coast. Currently constructing Scotland's largest OSW project - Seagreen (1075MW) we will hear from the Berwick Bank project; a 4.1GW fixed-bottom site currently undertaking consenting and engineering design works.

**Ocean Winds:** Internationally experienced in the deployment of bottom-fixed and floating projects, we will welcome Ocean Winds to provide an overview of the Moray West fixed-bottom project which is also competing in the UK Government CfD subsidy round this year. In addition, we are fortunate to have a senior member of the Caledonia project team a winning 1GW fixed-bottom site building on their offshore hub in the Outer Moray Firth where Ocean Winds has over 10-years' experience. Ocean Winds is also the Industry Champion for the DeepWind supply chain cluster and chair a number of supply chain sub-working groups.

**Red Rock Power:** together with their JV Partner ESB, the Inch Cape project, a 1GW fixed bottom site on the east coast of Scotland, will compete in the UK Government CfD subsidy round this year. The team from Red Rock Power will present an overview of their supply chain strategies and project timeline.

**Falck Renewables:** winning two floating sites with their JV partner Blue Float (in total 1.7GW) and a third site with Orsted and Blue Float (1GW) Falck (and Blue Float) are new entrants to the UK OSW market. With interests also in Italy and the Celtic Sea (Wales), Falck has an OSW portfolio\* of over 3GW.

**ORE Catapult:** ORE Catapult is the UK's leading technology innovation and research centre for offshore renewable energy. Utilising their unique facilities and R&D engineering capabilities, including the blade testing centre in the North East of England, the operational 7MW Levenmouth Turbine in Scotland and other digital capabilities they bring together industry and academia to drive innovation in renewable energy. We welcome Andy Macdonald, Director of OSW Development & Operations and his colleagues to hear more on the Fit4Offshore Renewables programme, the Launch Academy and the Offshore Wind Growth Partnership, a business transformation programme that has been established as part of the UK Offshore Wind Sector Deal that will promote closer collaboration across the supply chain.

**Crown Estate Scotland (CES):** CES is responsible for the management of assets in Scotland including the seabed, coastline, rural estates and urban properties which at 31 March 2021 were valued at over £455M. Ownership of the estate remains with the Monarch and management responsibility with Scottish Ministers. In supporting the development of the Blue Economy, leasing for offshore wind including ScotWind and INTOG are at the heart of their business. Gillian Morrison, Development Manager - Supply Chain will join us to provide a background of the ScotWind Supply Chain Development Statement (SCDS) and the approach that is being taken in Scotland.

\* OSW portfolio capacities relate to the ownership share of the developer in the projects; the total project capacities in which the developer has an interest in, or over which it has control, may be greater than the capacity noted above.

# Norwegian delegation

|                      |                    |                                     |
|----------------------|--------------------|-------------------------------------|
| 4Subsea              | Leona Jeffrey      | UK Country Manager                  |
| ABB                  | Frank Wilhelmsen   | Segment Sales Manager Offshore Wind |
| Bondura Technology   | Ragnar Sandve      | Senior Advisor                      |
| Firenor              | Sigve Myhre        | Aftersales Manager                  |
| Firenor              | TBA                | TBA                                 |
| GCE Ocean Technology | Kai Stoltz         | Business Development Manager        |
| Geoprovider          | Rasa Morgan        | Project Manager Offshore Wind       |
| HMH                  | Jens C. Heffermehl | Program Manager                     |
| HMH                  | Espen Johannessen  | Senior Analyst                      |
| Kongsberg Norcontrol | Lars Bleymann      | Sales Manager                       |
| Marine Aluminium     | Grethe Bakkevig    | Chief Commercial Officer            |
| Miros                | Maggie McMillan    | VP Renewables                       |
| Miros                | Andrew Wallace     | Vice President Offshore Operations  |
| Miros                | Richard Chen       | Technical Manager                   |
| MRC Global           | Alfred Risan       | Business Development Manager        |
| NorSea Group         | Walter Robertson   | Managing Director                   |
| NorSea Group         | Toralf Ekrheim     | Project Manager                     |
| NorSea Group, Elevon | Andrew Civil       | Chief Operating Officer             |
| Shoreline            | Rebecca Rosseland  | Key Account Manager                 |
| Origo Solutions      | Marius Jønstrud    | Lead System Architect               |
| OTS                  | Henning Støylen    | PD & Project Engineer               |
| Umoe Mandal          | Helge Andersen     | Sales Manager                       |
| Umoe Mandal          | Are Søreng         | VP Sales & Marketing                |
| IKM                  | James Campbell     | Business Development Lead           |
| IKM                  | Scott Morton       | Decom, Renewables & Tech M.         |
| Vissim               | Dominik Przygodzki | Business Development Manager        |
| Vissim               | Nicholas Nick Dent | MD - Global Wind                    |
| WindWorks Jelsa      | Geir Ims           | Chairman of the board               |
| Wirescan             | Vidar Bergli       | VP Sales                            |
| WISE Group           | James Ossai        | Operations Manager                  |

# Practical information

## Travel

We recommend that all participants travelling to Glasgow from abroad arrive on the 7 March as meetings will start early on the 8 March.

## Hotel

Our recommended hotel is Crowne Plaza Glasgow. Book here: <https://crowneplaza.com-glasgow.com/>. The hotel is interconnected with the conference venue, and is also the location for the additional third day Norwegian event on the 10 March.

## Conference

Website and tickets: <https://www.scottishrenewables.com/events/151-offshore22>

Venue: Scottish Event Campus (SEC), Exhibition Way, Glasgow, G3 8YW

Getting to the venue: The SEC is located just outside Glasgow city centre in the west-end. The campus is accessible by numerous transport options. Visit the [venue website](#) for helpful travel information.

## Meeting rooms

Scottish Event Campus (SEC): Norwegian Event Room is ALSH 1, Ground Floor SEC adjacent to the main conference auditorium.

Crowne Plaza: Island suite

# Contact information

## Norwegian Energy Partners

### Dorothy Shepherd

Local Energy Advisor UK Offshore Wind
